Fiscal Systems Partners with MFA Oil Company

Huntsville, AL (July 15, 2016) - Fiscal Systems, provider of point-of sale systems to the nation's largest truck stop chains, announced today their partnership with MFA Oil. MFA Oil is using the TravStar1 POS FleetLock System (CardLock).

The TravStar1 POS FleetLock System is the latest solution from Fiscal Systems that helps fuel marketers increase their profits. Built on the same software that powers our nation's largest truckstops and c-stores, the FleetLock System is an unattended fuel marketing solution that includes a web portal, outdoor payment terminal, and site controller.

The web portal provides a real-time view of each site's customer and sales activity, a convenient way to manage one or several sites remotely, and historical sales reporting. All of the web portal functions are available from a secure web browser in the office or on the road. In addition to real-time data, the TravStar1 POS FleetLock System has automatic email notifications to enable MFA Oil to remotely monitor and manage fueling sites.

"MFA Oil chose Fiscal after a vetting process of available vendors to replace our aged unattended point of sale systems. Fiscal was chosen because of their hardware availability, their ability to respond to programming needs required by MFA Oil, and the way they became our partner, instead of just another vendor to MFA Oil," said James Greer, VP of Supply & Government Affairs. "As we move forward with Fiscal we feel confident they will be able to respond to our needs with technology changes and industry changes such as EMV."

About MFA Oil

MFA Oil is a farmer owned cooperative formed in 1929. MFA Oil has 40,000 member owners and it a diverse cooperative. In addition to serving farmers with fuels, lubricants, and propane, MFA Oil owns and operates 75 Break Time convenience stores, a growing Big O franchise with 15 locations, and 7 Jiffy Lube franchises. MFA Oil supports the communities we serve through the MFA Oil Foundation Grant Program and scholarships through the MFA Foundation. The cooperative has grown to be the 7th largest propane retailer and the 18th largest farm cooperative in the United States.

About Fiscal Systems

For more than 30 years, Fiscal Systems has been developing and installing automation solutions for fuel retailers, ranging from single-site to national operators. The fuel retailing platform installed at thousands of sites includes C-Store POS, fueldesk POS, cardlock fuel management system, scanning, pricebook, inventory management, age verification, and web portal.
