

OEMV Equipment Criteria

[Gilbarco FlexPay IV](#)

Dispenser Version and Firmware

- The dispenser version required is:
UPM52.11.16EMVK3.10_CB01.08p1332_GU07.04pa000_VCL01.00p208_EMV10-Prod
- Fiscal requires Gilbarco Flex Pay IV EMV capable Dispensers to run EMV transactions. The dispensers will require CRIND firmware version 52.11.16 or higher for Alpha and Retail keypads. 52.11.16 is P.C.I. version 5 compliant.

Communication Protocols and Equipment

- Gilbarco BRCM-2 or Fiscal EMV Wireless Solution

[Wayne iXPAY Dispenser Version and Firmware](#)

Dispenser Version and Firmware

- The dispenser requirements are:
Wayne IX Pay Cats with EMV readers and keypads to run EMV transactions.
- The firmware version required is [2.8.105.46](#) (Jade North America). This firmware works with both Jade and Red boards for Retail CRINDs. Note: Wayne does not plan to have firmware support for Alpha until ~2021.

Communication Protocols and Equipment

- Wayne Connect or Fiscal EMV Wireless Solution

[Fiscal LPT](#)

Dispenser Version and Firmware

- The dispenser requirements are:
The Fiscal LPT must have an EMV Split Face upgrade to incorporate the EMV pinpad.
- SLES 11.4 OS required.

Communication Protocols and Equipment

- The LPT is already compliant with Ethernet connectivity. A Fiscal EMV Wireless Solution is also available.
