

PetroVerse AIR

PetroVerse AIR is the next-gen POS built for the fast lane of fuel and retail. Powered by Android and driven by the cloud, it keeps your c-store or forecourt operation firing on all cylinders with real-time data, remote access, and seamless automation.

Built from the ground up by Fiscal Systems, PetroVerse AIR delivers a reliable, flexible, and future-ready platform for independent retailers, truck stops, and fuel stations. Forget the clunky legacy setups—this system lets you manage pricing, inventory, and transactions anytime, anywhere.

From fuel sales to fleet payments, c-store goods, tobacco, and lottery... PetroVerse AIR handles it all—quickly, efficiently, and on one powerful platform.

Key Features

Cloud-Based Back Office: Manage Your Store from Anywhere

No more being tied to an on-site PC. PetroVerse AIR's cloud-based back office gives you real-time access to sales data, inventory, and pricing—right from your phone, tablet, or computer. Monitor your business, adjust prices, and make informed decisions anytime, anywhere.

Complete Retail & Fuel Sales Solution

PetroVerse AIR is built for versatility. From clothing and food to fuel, this POS handles it all. Whether you're running a convenience store, fuel station, or hybrid retail setup, PetroVerse AIR adapts to your business model. One system, endless possibilities.

Offline Transactions: Keep Selling, Even Without Internet

PetroVerse AIR ensures your business keeps running smoothly even when your connection drops. Offline transaction processing means fuel and retail sales continue without interruption, and data syncs automatically once you're back online. Stay operational, no matter what.

Introducing "Clic" the AI-Powered Support Chatbot

"Clic" our built-in AI-powered chatbot provides real-time support for troubleshooting, pricing updates, system guidance, and employee training—24/7.

Why Upgrade from Legacy POS Systems?

- Cloud-based convenience.
- No delays between POS & back office.
- Offline transaction support.
- "Clic" AI-powered chatbot help.
- Supports modern payment options.
- Future-proof your business with PetroVerse AIR.

Who Should Use PetroVerse AIR?

- Convenience stores, gas stations, truck stops & all retailers.
- Independent store owners.
- Locations selling fuel.
- Verified P2PE is coming for inside and outside transactions, reducing PCI requirements by 80% or more.

If this sounds like your business, PetroVerse AIR is built for you.

PetroVerse AIR

The goal of PetroVerse AIR is to empower any and all retailers with enterprise-level functionality without the high costs and complexity typically associated with large-scale POS systems. By leveraging offline transaction capabilities, AI-driven chatbot support, and seamless EPS integration for secure bank communication, PetroVerse AIR keeps businesses running smoothly, even in challenging conditions.

The system is designed for rapid deployment, allowing retailers to transition quickly from legacy POS solutions to a modern, scalable, and intuitive platform. Whether serving customers at the pump, in-store, or through emerging digital payment options, PetroVerse AIR is engineered to help retailers stay competitive in an evolving market.
